STATEMENT OF FACTS IN SUPPORT OF FILING ON BEHALF  
OF NONSIGNING INVENTOR (37 C.F.R. § 1.47)

Dear Commissioner:

This statement is made as to the exact facts that are relied upon to establish the diligent effort made to secure the execution of the declaration by the nonsigning inventor for the above-identified patent application before deposit thereof in the Patent and Trademark Office.

Because signing on behalf of the nonsigning inventor is by a person or entity showing a sufficient proprietary interest, this statement also recites facts as to why this action was necessary to preserve the rights of the parties or to prevent irreparable damage.

This statement is being made by David M. Sullivan, attorney of record for the present application, who has first-hand knowledge of the facts recited therein, which are as follows:

I. STATEMENT OF FACTS

This Petition is being filed to state the facts in support of the Declaration made by Stephen M. Breit, an authorized agent for the Assignee, Wood Group ESP, Inc. I have first-hand knowledge of the facts recited herein and appreciate the irreparable damage that will be caused the Assignee should this petition under 37 C.F.R. § 1.47(b) be denied. The statement of facts that follow, indicate that I have made a *bona fide* and diligent effort to secure the execution of the declaration by the nonsigning inventor for the above-identified patent application

The nonsigning inventor, Dr. Jose John Vennat, was formerly employed by the Assignee, Wood Group ESP, Inc. The nonsigning inventor voluntarily left Wood Group ESP, Inc. and is now employed as a consultant in competition with the Assignee.

The nonsigning inventor has been provided a copy of the complete patent application and an opportunity to sign the Combined Declaration/Power of Attorney on two occasions detailed below which are accompanied by supporting documentation attached as Exhibit D-F:

**EXPRESS MAIL RECEIPT NO.: EV085809391US**  
**DEPOSITED ON: NOVEMBER 17, 2003**

**PATENT**  
**Atty Docket No.: P1714US01**

1. On May 30, 2003, the patent application, combined declaration and power of attorney, and assignment were hand delivered by me to the nonsigning inventor at the Assignee's offices (see Exhibit D). During the meeting with the nonsigning inventor on May 30, 2003, the nonsigning inventor refused to sign the necessary Declaration and Power of Attorney but would not articulate any reason in support of his refusal. The nonsigning inventor voluntarily left the employ of the Assignee later that day.

2. On June 27, 2003, the patent application, combined declaration and power of attorney, and assignment were mailed via Certified Mail to the nonsigning inventor's place of residence (see Exhibit E). The Domestic Return Receipt indicates that the June 27, 2003 letter was received by the nonsigning inventor or a member of his family on July 1, 2003 (see Exhibit F).

As the nonsigning inventor has not returned the documents attached to the May 30, 2003 or June 27, 2003 letters, the acceptance of this Petition is required to insure that the Assignee's prospective patent rights are not lost. Failure to accept this Petition in support of the Declaration under 37 C.F.R. 1.47(b) may result in abandonment of Application No. 10/632,577 and cause irreparable damage to the Assignee.

In view of the foregoing, I respectfully request that the Commissioner grant this petition and accept the Declaration under 37 C.F.R. §1.47(b).

## **II. Petition Fee**

Enclosed is PTO Form-2038, the credit card payment form in the amount of \$130.00 for the fee required under 37 C.F.R. § 1.17 to file the Petition.

You are hereby authorized to charge deposit account no. 13-0110 should there be any additional fees required for filing the Petition.
